# 7-POINT SERVICES

## USB OF LSS

- **Plant**
- **Design**
- **Erection Team**

We have good plant and machinery which can produce 500 MT per month. Also very experience production team which can handle any complex projects.

We have in house design team. Due to this we can customize our buildings as per client need. A design is soul of any building or equipment. If you can control design you can control overall project. We are using latest design software MBS (Metal building software) Staad Pro, Tekla, Autocad. Which will give us freedom to work on American and Indian Standard both.
